ABOUT

ECBM

Our Portrait Photography is fairly straightforward. Whether it is an individual Headshot, Headshots for the team, or a team photograph, we take great care to present you in the best light.

We work with you to ensure your image speaks to your industry, your position, and your intent.

We strongly suggest the use of a professional MUA who understands photography and the use of lighting.

PROCESS

ECBM

Our aim is to keep our process as linear as possible. We feel this way our clients always know where they are in the process.

Based on acceptance of the quote, we will send over the contracts and an invoice for a deposit to handle your portrait shoot.

We then execute your shoot in accordance to our predetermined direction. A final invoice will then be sent for the balance after the images are edited.

Lastly, we deliver the images and review the process to ensure nothing was missed.
